

Installation of Smart Dimmer

1. Open the front cover using a flathead screwdriver

Insert the flathead into the space on one side of the switch, and simply turn the handle clockwise. The front cover will easily come loose.

2. Rotate the screwdriver counterclockwise to release the cage terminal

3. Connect the wire to the correct terminal and tighten the screws.

4. Fix Screws (screw size: 50mm x M3.5)

5. Cover the panel and connect to the power. (After the power is on, please wait for 10 seconds, then touch one of the buttons to turn on your lamps)

Push until click

Connect Your Smart Dimmer to the Internet

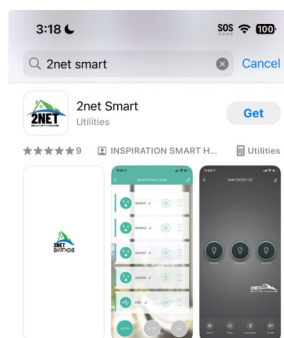

1. Connect your mobile phone to your Wi-Fi network

Ensure your mobile phone is connected to your 2.4GHz Wi-Fi network (Not 5GHz), and get the user name and password ready.

2. Download & Register 2Net Smart App

Scan the QR code below to download the 2Net Smart App.

Or search the app up on Google Play Store or App Store

3. Add Zigbee gateway on the 2Net Smart app

- ◇ Use the Ethernet cable to connect to the zigbee gateway and router.
- ◇ Open 2Net Smart home app at your mobile phone and click “+” – “Add Device” at the top right corner.
- ◇ Choose “Gateway Control ” – “Gateway (Zigbee)” click “Next” until finished.

4. Add the dimmer to 2Net Smart home app

- ◇ Once the smart dimmer is powered on, Press and hold  button for 5 seconds, the LED indicator will be flashing and the smart light switch is now active for pairing.
- ◇ Open “2Net Smart” app and click “+” – “Add Device” at the top right corner, then choose “Electrical ” – “Switch (Zigbee)” – “Confirm the indicator is blinking” – “Next”. Follow on-screen instructions until complete.

5. How to use dimmer switch

- ◇ Touch the ○ button to turn lights on/off,
- ◇ Pres and hold The △ button to dim, and ▽ to bright

6. What can I do if lights flicker ?

Flicker happen when the working current of LED lights is too less.

We can increase voltage to solve this matter.

- ◇ Press and hold △ and ▽ buttons for 5 seconds, the brightness of lights will be 50%.
- ◇ Touch △ or ▽ button to increase or decrease brightness.
- ◇ Touch ○ button to save setting.

lights bright is 50%

Warning

- ◇ Qualified electrician is required for installation.
- ◇ Isolate power before working on circuit.
- ◇ Please do not modify any parts of the product.
- ◇ Working power cannot be higher than the rated power (less than 300W dimmable LED, or less than 600W incandescent lamp.)
